RE: Establish Benchmark for Flood Plain Information

Location: Parcel in Gov. Lot 1, Section 6, T39N-R16W, Lot 8 of Unrecorded Plat filed as D-529  
217195 Jamison Road

Client: Tim Jeske

Gentlemen:

I hereby certify that we have established a benchmark to be used as an elevation reference point for the above described property.

Basis of Elevations: Yellow Lake 2 (DN5313) = 937.86

Description of Site Benchmark: BenchTie Spike Set in West Face of 8" Maple,  
1.7' above the ground; 10' North of Driveway and ~100' West of Jamison Road

Elevation of Benchmark: 932.8 This is set at the RFE

Regional Flood Elevation: 932.8 (Yellow Lake - 2008 FIS Stillwater Table)

Other Notes: Mr. Jeske is considering building an garage/shed between the existing cabin and road. The information presented hereon will initially be used for planning purposes and can ultimately be used to support the construction process and subsequent compliance certificate. Ground in vicinity of proposed 30'x40' Accessory Building, varies from 930.9 to 932.0. Ground at existing cabin NW= 931.5; SW=931.5; SE=930.9; NE=932.0.

Respectfully,

Douglas R. Crane

c.c. Tim Jeske
