Source: U.S. Bureau of the Census, 1990-2000, STF-1.

As indicated by Table 2-8, the total number of housing units has been increasing since 1990 for Burnett County as a whole and for most of its communities. Communities that experienced the highest rates of housing growth between 1990 and 2000 include the towns of Dewey, LaFollette, and Scott, and the Village of Grantsburg. When considering the number of new housing units, the fastest growing communities were the towns of Oakland, Jackson and Scott. Six towns experienced a decrease in housing units between 1990 and 2000: Blaine, Daniels, Roosevelt, Webb Lake, West Marshland, and Wood River. Decreases in housing units may be accounted for as older homes that were razed but not rebuilt, town areas that were subject to annexation by a village, or errors in the census data.

Table 2-9 details the number of housing units in Burnett County by type of municipality.
